

Confirmation

Sekisui Alveo AG warrants the owner of the playing field or fields where Alveosport® has been installed that Alveosport® is free from defects in material and workmanship when installed.

For a period of two life cycles of the synthetic turf sports surface, Alveosport® does not show extraordinary deterioration under normal and proper use as underlayment for such surfaces, maximum for sixteen (16) years after date of installation according to registration form.

“Normal and proper use” does NOT include any damage or defect caused totally or partly by any of the following reasons which are beyond our sphere of influence:

1. Improper handling or use of the Alveosport® after delivery at the site of installation, including, but not limited to, imposition of excessive static or dynamic loads or improper cutting of Alveosport® within the installation process;
2. Improper or inadequate site preparation, including, without limitation, improper or inadequate base material, improper or inadequate base material grading or compaction; or improper design or installation of drainage facilities or field edging;
3. Improper installation of the Alveosport, including, without limitation, failure to comply with Sekisui Alveo's installation instructions;
4. Installation in high wear areas such as goal boxes, penalty kick areas, batters boxes, etc;
5. Improper use of protection after installation, including, without limitation, imposition of compressive static or dynamic stress which exceed those experienced in normal playing-field use, or cutting of Alveosport by any cause after installation;
6. Soil expansion or contraction, subsidence, shifting, compression, erosion or any other condition related to soil, base or subsurface upon which the Alveosport is installed;
7. Improper installation, maintenance, repair or replacement of the synthetic turf system;
8. Use of heavy loads, excessive vehicular traffic or vehicles with anything other than smooth tread pneumatic tires;
9. Use of the playing surface for sports purposes other than that for which it was designed and installed;
10. When regular maintenance of the synthetic turf surface is not properly executed and a maintenance journal (according to Fifa model) is not used;
11. The playing field is used for more than 1500 hours per year;
12. When the Alveosport is removed from the location in which it was originally installed;
13. Extended exposure of the Alveosport to wind, sunlight or other source of UV light;
14. Floods, fires, winds, lightning, accident, vandalism, terrorism, war, malicious mischief, or any other events of force majeure;

We warrant that Alveosport® acts as shock absorbing and drainage layer during the warranty period whereas shock absorption is not reduced by more than ten (10) absolute percentage of shock absorption compared to the initial production batch sample. Shock absorption test are performed according to EN 14808.

This warranty is expressly limited to the properties of the Alveosport® layer and does not recognize the synthetic turf system in total.

Consequences of Defects

Any justified total or partly Alveosport® damage or defect covered by this warranty and confirmed by us shall be eliminated by replacement of the total Alveosport® layer or the non-conforming part, respectively, at the expense of Sekisui Alveo AG. The decision of total or partly replacement is at our own discretion.

Requirements

This Alveosport® Product Warranty shall be effective as soon as:

- (1) The attached Alveosport® Limited Product Warranty Registration Form providing the Owner's name, installation date, installation company, product information, field location, etc. is completed and filed with Sekisui Alveo at the address below, postmarked within thirty (30) days after the installation of Alveosport®;
- (2) The owner gives Sekisui Alveo written notice of a claim under this Warranty within thirty (30) days after the owner discovers the existence of the condition that gives rise to the claim;
- (3) The owner provides Sekisui Alveo representative(s) an opportunity to inspect the Alveosport® with respect to which the claim is made.

Disputes

In case of a dispute required measurements shall be performed at an independent officially certified body. The choice of the certified test laboratory must be confirmed by Sekisui Alveo in writing and in advance. When the tests result in compliance of Alveosport®, all costs have to be borne by the owner of the playing field.

All disputes in connection with this warranty shall be governed by Swiss Law. Exclusive Place of Jurisdiction is Lucerne (Switzerland).

Disclaimer

Sekisui Alveo is not liable for any punitive, special, consequential, incidental or indirect losses or damages arising out of or in connection with the purchase, use or condition of any rolls, including, but not limited to, loss of use of any playing field.
