

Because she's on it,
we care about what's in it.

Earth-friendly infill that's safe around children and pets.

Non-toxic and completely reusable, Envirofill makes artificial turf look and feel great. And, Microban® antimicrobial product protection works continuously to help prevent the growth of odor and stain causing bacteria, mold and mildew.

No wonder it's the new favorite of landscape experts. Call 800-548-0402 or visit usgreentech.com and have your families love their lawn.

HIGH PERFORMANCE INFILL

Microban
antimicrobial product protection

A different kind of infill. Envirofill® is composed of naturally occurring silica sand found only in the Hickory Formation in central Texas. Its highly rounded quartz core resists compression so it doesn't continue to compact over the life of your lawn.

It's cool. Envirofill's natural heat reducing properties have been proven to lower synthetic lawn surface temperatures as much as 25%. And it resists changes brought on by even the harshest weather conditions, so your lawn is always a beautiful surface to relax or play.

It's cleaner. Microban® antimicrobial protection is infused into Envirofill during the manufacturing process to help prevent the growth of bacteria, mold, and mildew that can cause stains, odors, and product deterioration.

It's reusable. With its inherent durability and reusability, Envirofill has the potential to be reused as infill long after the turf wears out.
